B.A. in Liberal Arts

Overview
Degree Requirements

Description

The B.A. in liberal arts is a multidisciplinary degree program that allows students to select three minors, two of which must be within the College of Liberal Arts. Students create a flexible degree program that may fit academic or career interests more precisely than a traditional B.A. degree. In particular, students who anticipate graduate or professional study in an area that does not require a specific undergraduate specialty (business, law, or medicine, for example) may find this program especially well-suited to their needs and interests.
