requirements applicable to the specific degree for which he or she is a candidate.

Academic Residency Requirements
All courses taken at the University of Mississippi Oxford campus, at any of the university’s resident centers in Tupelo, Jackson, Southaven, or other locations in Mississippi, through the university’s Department of Independent Study by a University of Mississippi student, or through approved study abroad and exchange programs where the student is registered in University of Mississippi courses, are considered to be courses taken in residence.

At least 25 percent of the semester credit hours required for an undergraduate degree (e.g., 31 hours for a 124-hour degree) must be taken in residence. At least 30 semester hours of residence credit must be taken in the school or college recommending the degree. Both hours taken before and after a student declares a major in a particular school or college may be used to satisfy the 30-hour residence requirement.

Last 21-Hour Residency Requirement
Students must acquire at least 15 of their last 21 credit hours in residence at the university. That is, no more than 6 of the last 21 hours may be transfer credit. A student may not apply courses taken from the university’s Independent Study department or via the university’s study abroad or exchange programs towards this 15-hour requirement unless the student has obtained written approval from the student’s academic department and dean before enrolling in the course.

Degree Application
Each senior must file a degree application, listing courses and credit hours to be applied towards the degree, with his or her academic dean. Deadlines for submitting this application are set by the college and schools.

Diploma Application
A candidate for graduation must submit an application for a diploma to the registrar on or before the deadline for the application for diploma, as stated in the Academic Calendar. Application is made for graduation at a specified time; if a student fails to graduate at that time, he or she must submit another application to be considered for graduation at a later date.

Commencement
Attendance at commencement exercises is required for those students who graduate at the end of spring or summer semesters. In case of hardship, a student may petition his or her academic dean to be excused. With the recommendation of the dean and the approval of the chancellor, the degree can be awarded in absentia. Students who graduate at mid-year are invited to participate in the spring commencement, but are not required to attend.

Dual Major and Second Bachelor’s Degree
A student may receive a single bachelor’s degree with more than one major. For example, a student may receive a B.A. degree in the College of Liberal Arts with a double major. Regardless of whether the requirements for the two majors are completed simultaneously or in succession, the university is authorized to award a single degree and diploma in such cases.

A student may receive a second bachelor’s degree of a different degree type (e.g., the first degree being a B.A. and the second being a B.S.) by completing at least 30 additional semester hours in residence from the university with a minimum 2.00 GPA for these additional hours. All requirements for the second degree must be completed, including courses required for the major and general education courses that may be different from those for the first degree program. As an example, if the first degree requires 124 hours, a student must complete an additional 30 hours (154 hours total and including all specific course requirements for both programs) to be awarded a second, different bachelor’s degree. If the two degrees are awarded by the same school/college, then there may be additional rules imposed by that school/college. Two diplomas are awarded in this case, whether or not the requirements for the degrees are met simultaneously or in succession.

If a student has received the first degree from another institution, to receive a second bachelor’s degree from the University of Mississippi, he or she must satisfy the specific courses for the major with at least 30 hours in residence enrollment and with a minimum 2.00 GPA on work attempted at the university. Note that the 30 hours of University of Mississippi resident work is a minimum and that at least 25 percent of the credit hours required for the degree must be completed from the University of Mississippi.

Curriculum Changes
Whenever possible, the university allows a student to obtain a degree by completing the curriculum course requirements in the catalog in effect at the time of the first, or any subsequent, registration at the University of Mississippi or at an accredited junior, community, or senior college, provided the work is completed within six years of the publication date of the catalog used. In the case of minor changes to a specified curriculum, a school or college may require substitute courses or activities to meet the spirit of the requirements. However, in the case of substantial changes to the curriculum, the university reserves the right to require currently enrolled students to follow a new curriculum.
