**B.S. in Public Health & Health Sciences**

**Description**
The B.S. in public health and health science program provides students with foundational public health knowledge and skills that can be applied across many settings. The program prepares students to enter the workforce or continue their education into areas such as public health, community, collegiate or worksite health, pre-professional and allied health programs. Students must complete one of the two concentrations offered in the program: community health promotion and/or health science studies.

**Minimum Total Credit Hours: 120**

**General Education Requirements**
See [General Education/Core Curriculum for the School of Applied Sciences](http://catalog.olemiss.edu/2021/fall/undergraduate/applied-sciences/health-exercise-sci-recreation-mgmt/bs-phhs).
