ES 632: Advanced Structural Kinesiology
Health, Exercise Sci & Recreation Mgmt

Clinically oriented advanced applied anatomy. Advanced analysis of human functional anatomy, primary emphasis on articular, skeletal, muscular, and nervous systems; specifically related to exercise science and prescription. Integrated discussions of physiological and biomechanical aspects of human movement for disciplines ranging from physical therapy and rehabilitation to biomechanics.

3 Credits

**Prerequisites**
- Bisc 206: Human Anatomy and Physiology I

**Instruction Type(s)**
- Lecture: Lecture for ES 632

**Subject Areas**
- Kinesiology and Exercise Science

**Related Areas**
- Health and Physical Education, General
- Health and Physical Education/Fitness, Other
