ES 632: Advanced Structural Kinesiology
Health, Exercise Sci & Recreation Mgmt
Clinically oriented advanced applied anatomy. Advanced analysis of human functional anatomy, primary emphasis on articular, skeletal, muscular, and nervous systems; specifically related to exercise science and prescription. Integrated discussions of physiological and biomechanical aspects of human movement for disciplines ranging from physical therapy and rehabilitation to biomechanics.
3 Credits
Prerequisites
- Bisc 206: Human Anatomy and Physiology I
Instruction Type(s)
- Lecture: Lecture for ES 632
Subject Areas
- Kinesiology and Exercise Science
Related Areas
- Health and Physical Education, General
- Health and Physical Education/Fitness, Other
- Sport and Fitness Administration/Management
