B.S. in Dietetics and Nutrition

Overview

Degree Requirements

Description
The program in dietetics and nutrition provides an academic path for students to enter careers or advanced programs in dietetics and nutrition.

Minimum Total Credit Hours: 124

Goals/Mission Statement
The mission of the dietetics and nutrition program is to prepare a diverse community of students who will be prepared academically and professionally to achieve success in postgraduate studies such as dietetic internships, graduate school and/or dietetic-related careers. Students will be able to analyze current academic and research literature, value lifelong learning, participate in community-based service learning activities, and demonstrate professional ethics.

General Education Requirements
See the General Education/Core Curriculum for the School of Applied Sciences. Students in this major, however, must take Bisc 102/103 or 160/161 to fulfill the "Human Biology w/Lab" requirement and earn a grade of C or better. Students must also take Bisc 206 for the "Additional Science w/Lab" requirement and earn a grade of C or better.

An additional 35 hours are required in the following courses: Csci 191, Chem 105/115 (minimum grade of C), Chem 106/116 (minimum grade of C), Bisc 207 (minimum grade of C), Bisc 210 (minimum grade of C), Chem 221/225 (minimum grade of C), Chem 271 (minimum grade of C), Mgmt 371 OR GB 370, Mgmt 383 or NHM 466, and Spch 102, 105 or Bus 271.

Note: Higher-level science courses may substitute for the courses listed above. Students in this program should consult the academic adviser or dean's office if they wish to take or have already taken a more advanced science course.

Course Requirements

A minimum grade of C is required in all NHM core courses.

Other Academic Requirements
A verification statement documenting successful completion of all undergraduate course requirements is required for graduates to gain acceptance into accredited dietetic internship programs.
