C E 455: Civil Engineering Design I
Civil Engineering

Initial course in capstone design sequence. Individual and group experience in identifying objectives, major activities affecting cost/schedule, and roles of private and public organizations in civil engineering projects; introduction to regional and national building code provisions for access, egress, and structural safety; creativity in the design process and selection of competitive alternatives; preliminary site planning and facility design; preliminary group planning of a significant civil engineering project. Introduction to the use of computational tools for analysis, design, and visualization.

2 Credits

Prerequisites
• Pre-Requisite: 24 Earned Hours

One-way corequisites
• C E 412: Design of Concrete Structures
• C E 433: Foundation Engineering
• C E 481: Transportation Engineering I
• C E 472: Water Resources Engineering

Instruction Type(s)
• Lecture: Lecture for C E 455

Course Fee(s)
Civil Engineering 3
• $200.00

Subject Areas
• Civil Engineering, General

Related Areas
• Geotechnical and Geoenvironmental Engineering
• Structural Engineering
• Transportation and Highway Engineering
• Water Resources Engineering
