C E 581: Transportation Engineering II

Civil Engineering

Advanced topics in transportation engineering and management with emphasis on intermodal facilities; physical design and traffic management; measures of system effectiveness and performance; environmental and social impacts; Intelligent Transportation System (ITS) technologies; applications of remote sensing and spatial technologies and GIS; economic evaluation of alternatives; computer modeling and simulation.

3 Credits

Prerequisites
• Pre-requisite: C E 481 (or Graduate Standing)
• Prerequisite: Junior standing (60 hr).

Instruction Type(s)
• Lecture: Lecture for C E 581

Subject Areas
• Civil Engineering, General
• Transportation and Highway Engineering

Related Areas
• Geotechnical and Geoenvironmental Engineering
• Structural Engineering
• Water Resources Engineering
