**Csci 391: Computer Graphics**

**Computer & Information Science**

Introduction to the fundamentals of computer graphics, including elementary figures, shading, geometric transformations, graphics program design, and interactive techniques.

3 Credits

**Prerequisites**
- Math 262: Unified Calculus & Analytic Geometry II
- Csci 211: Computer Science III
- Csci 223: Computer Org. & Assembly Language

**Instruction Type(s)**
- Lecture: Lecture for Csci 391

**Subject Areas**
- Computer Science
- Computer Graphics

**Related Areas**
- Data Modeling/Warehousing and Database Administration
- Web Page, Digital/Multimedia and Information Resources Design
