Csci 391: Computer Graphics

COMPUTER & INFORMATION SCIENCE

Introduction to the fundamentals of computer graphics, including elementary figures, shading, geometric transformations, graphics program design, and interactive techniques.

3 Credits

Prerequisites

- Math 262: Unified Calculus & Analytic Geometry II
- Csci 211: Computer Science III
- Csci 223: Computer Org. & Assembly Language

Instruction Type(s)

- Lecture: Lecture for Csci 391

Subject Areas

- Computer Science
- Computer Graphics

Related Areas

- Data Modeling/Warehousing and Database Administration
- Web Page, Digital/Multimedia and Information Resources Design
