Csci 391: Computer Graphics
Computer & Information Science
Introduction to the fundamentals of computer graphics, including elementary figures, shading, geometric transformations, graphics program design, and interactive techniques.
3 Credits
Prerequisites
- Math 262: Unified Calculus & Analytic Geometry II
- Csci 211: Computer Science III
- Csci 223: Computer Org. & Assembly Language
Instruction Type(s)
- Lecture: Lecture for Csci 391
Subject Areas
- Computer Science
- Computer Graphics
