Csci 521: Computer Systems Engineering

**Computer & Information Science**

Analysis of computer system components and manufacturing economics, and how they influence design goals, direct architectural development, create hardware/software issues and modify implementation concepts, as well as system and circuit packaging.

3 Credits

**Prerequisites**
- Pre-requisite: CSCI 423 or CSCI 501 or Graduate Standing

**Instruction Type(s)**
- Lecture: Lecture for Csci 521

**Subject Areas**
- Computer Science
