EI E 485: Microprocessor Systems Engineering
Electrical and Computer Engineering

Microcomputer systems. Programming, software aids, and principles of microprocessor interfacing.

2 Credits

Prerequisites
- Pre-Requisite: 24 Earned Hours

Corequisites
- El E 486: Microprocessor Systems Engr Lab

One-way corequisites
- El E 385: Advanced Digital Systems

Instruction Type(s)
- Lecture: Lecture for El E 485

Subject Areas
- Computer Engineering, General
- Electrical and Electronics Engineering
