BME 462: Biomedical Engineering Senior Design II

**Electrical Engineering**

Biomedical-orientated design projects involving the design, planning, and testing of a prototype; and/or selection of new design projects addressing realistic constraints such as human safety, health care costs, reliability, ethics, and social impact. Part 2 of a two-semester sequence.

2 Credits

**Prerequisites**

- BME 461: Biomedical Engineering Senior Design I
- Pre-Requisite: 24 Earned Hours

**Instruction Type(s)**

- Lecture: Lecture for BME 462

**Course Fee(s)**

- Biomedical 2
  - $200.00

**Subject Areas**

- Bioengineering and Biomedical Engineering
