BME 462: Biomedical Engineering Senior Design II

Biomedical-orientated design projects involving the design, planning, and testing of a prototype; and/or selection of new design projects addressing realistic constraints such as human safety, health care costs, reliability, ethics, and social impact. Part 2 of a two-semester sequence.

2 Credits

Prerequisites
- BME 461: Biomedical Engineering Senior Design I (Minimum grade: C-)

Instruction Type(s)
- Lecture: Lecture for BME 462

Subject Areas
- Bioengineering and Biomedical Engineering
