BME 462: Biomedical Engineering Senior Design II

**ELECTRICAL ENGINEERING**

Biomedical-orientated design projects involving the design, planning, and testing of a prototype; and/or selection of new design projects addressing realistic constraints such as human safety, health care costs, reliability, ethics, and social impact. Part 2 of a two-semester sequence.

2 Credits

**Prerequisites**
- BME 461: Biomedical Engineering Senior Design I (Minimum grade: C-)

**Instruction Type(s)**
- Lecture: Lecture for BME 462

**Subject Areas**
- Bioengineering and Biomedical Engineering
