El E 487: Digital Signal Processing Laboratory

ELECTRICAL ENGINEERING

Self-paced laboratory on the fundamentals of data acquisition and digital signal processing. (3 lab hours).

1 Credit

Prerequisites

• El E 354: PC-Based Instrumentation Laboratory

Instruction Type(s)

• Lab: Laboratory for El E 487

Subject Areas

• Electrical and Electronics Engineering
• Computer Engineering, General

Related Areas

• Computer Hardware Engineering
• Laser and Optical Engineering
• Telecommunications Engineering
