Engr 718: Coding for Error Code

SCHOOL OF ENGINEERING

This course provides a working knowledge of the use of codes to minimize error in the transmission of data using block and convolutional codes.

3 Credits

Instruction Type(s)
- Lecture: Lecture for Engr 718

Subject Areas
- Artificial Intelligence
- Electrical and Electronics Engineering

Related Areas
- Computer and Information Sciences, General
- Electrical, Electronics and Communications Engineering, Other
- Engineering Mechanics
- Information Technology
- Laser and Optical Engineering
- Telecommunications Engineering
