Engr 725: Antennas
School of Engineering
Aperture antennas, array synthesis, linear antennas, thin-wire antennas, traveling-wave antennas, frequency independent antennas; reciprocity principle and receiving antennas.
3 Credits
Prerequisites
• EI E 525: Introduction to Antennas

Instruction Type(s)
• Lecture: Lecture for Engr 725

Subject Areas
• Laser and Optical Engineering
• Electrical and Electronics Engineering

Related Areas
• Electrical and Electronics Engineering
• Electrical, Electronics and Communications Engineering, Other
• Laser and Optical Engineering
• Telecommunications Engineering
