Geol 500: Intro. to Geographic Information Systems

Geography information systems are combinations of computer software, hardware, and database (maps). These systems are used to analyze and display geographical information necessary for government and industrial planning.

3 Credits

Prerequisites

- Geol 305: Geomorphology
- Prerequisite: Junior standing (60 hr).

Instruction Type(s)

- Lecture: Lecture for Geol 500

Course Fee(s)

- Geology 1
  - $195.00

Subject Areas

- Geology/Earth Science, General
- Geographic Information Science and Cartography
