ME 325: Intermediate Dynamics
Mechanical Engineering

Continuation of Engr 309. Rigid body dynamics, vibrations, Lagrangian formulations; application to mechanical engineering problems.

3 Credits

Prerequisites

- Engr 309: Statics
- Pre-Requisite: 24 Earned Hours

Cross-listed Courses

- C E 325: Intermediate Dynamics

Instruction Type(s)

- Lecture: Lecture for M E 325

Subject Areas

- Physics, General
- Engineering, General
