Bisc 541: Cell Biol. of Neurodegenerative Disease
Biology
Cellular aspects of neurodegenerative diseases, with an emphasis on Parkinson's disease.
3 Credits
Prerequisites
• Bisc 330 or Bisc 327
Instruction Type(s)
• Lecture: Lecture for Bisc 541
Subject Areas
• Cell/Cellular and Molecular Biology
• Cell/Cellular Biology and Histology
Related Areas
• Anatomy
• Cell/Cellular Biology and Anatomical Sciences, Other
• Developmental Biology and Embryology
