Phad 497: Personal Finance for Pharmacists

Pharmacy Administration

Graduation is an exciting time full of wonderful opportunities and finally ... income! But, it can also be an overwhelming time when it comes to personal financial management. Hands-on exercises and projects throughout the semester will give students the tools to evaluate how their money is currently being spent, set short-term and long-term financial goals, reduce their tax liability, adequately insure themselves and their assets, make sound investment choices, prepare for retirement, navigate the stock market, evaluate mutual funds, strategize for major purchases, evaluate and select a financial planner, manage money during major life changes, and prevent theft of their identity.

2 Credits
