

## **Csci 259: Programming in C++** **COMPUTER & INFORMATION SCIENCE**

Study of programming in the language C++, covering character processing; use of pointers with strings, arrays and functions; data structures; bitwise operators.

3 Credits

### **Prerequisites**

- Csci 111 or Csci 251

### **Instruction Type(s)**

- Lecture: Lecture for Csci 259

### **Subject Areas**

- [Computer Science](#)
