

G E 401: Geological Eng. Design Field Camp 2

GEOLOGY & GEOLOGICAL ENGINEERING

Advanced application of geological engineering field instruments and field techniques; geologic engineering mapping exercises as individual and group projects drawn from selected geological engineering topics, including hydrology, environmental applications, geotechnical engineering, hazards engineering, and resource assessment; preparation of geologic and engineering reports, maps, and figures; analysis of observed conditions to make engineering judgments.

3 Credits

Prerequisites

- [Geol 303: Structural and Tectonic Geology](#)
- [Geol 305: Geomorphology](#)
- [G E 301: Geological Eng. Design Field Camp 1](#)
- [Engr 340: Engineering Geology](#)
- Pre-Requisite: 24 Earned Hours

Instruction Type(s)

- Lecture: Lecture for G E 401
- Lecture: Lecture for G E 401

Subject Areas

- [Geological/Geophysical Engineering](#)
