## Academic Regulations

### Preliminary Requirements

No student may enroll in a mathematics course unless he or she has a grade of C or higher in all prerequisite courses. Grades lower than C in mathematics courses will not be counted toward the mathematics major the B.A. or B.S. degree. Students who have received credit for MATH 261 or higher may not enroll in MATH 121, 123, or 125.

For the M.A., M.S., and Ph.D., the full four-semester sequence of calculus is prerequisite to all graduate courses. Prerequisite to a graduate program in mathematics is a background preparation in mathematics equivalent to the undergraduate major in the College of Liberal Arts; that is, courses through calculus, supplemented by at least 18 hours in mathematics at a higher level that are to include the advanced calculus sequence.
