

Prct 350: Information Skills in Pharmacy Practice

PHARMACY PRACTICE

This course is designed to introduce students to drug information resources as well as to provide the student with an understanding of principles of biostatistics, epidemiology, and research design with the underlying goal being the acquisition of skills used by pharmacists to seek, appraise, and apply knowledge from the biomedical literature to improve pharmacy practice and patient care. The course will consist of primarily of assigned readings, quizzes, interactive lectures, and group projects.

3 Credits
