

# Ch E 412: Process Control and Safety CHEMICAL ENGINEERING

Modeling of transient systems; design of feedback control systems and principles of process safety. 3 Credits

## **Prerequisites**

- Ch E 308: Chemical Process Principles II
- Ch E 412 Requires: One Way-Co-Requisite Math 353
- Pre-Requisite: 24 Earned Hours

# One-way corequisites

• Math 353: Elementary Differential Equations

# **Instruction Type(s)**

• Lecture: Lecture for Ch E 412

#### Subject Areas

• Chemical Engineering
