

# Phys 107: Physical Science I PHYSICS & ASTRONOMY

Lectures, demonstrations, and laboratory exercises on topics relating to a study of the physical universe. Included is a survey of physics, astronomy, and chemistry in an integrated lecture-laboratory sequence.

3 Credits

## Instruction Type(s)

• Lecture/Lab: Lecture/Lab for Phys 107

# Course Fee(s)

#### Astronomy and Physics

- \$50.00
- \$75.00

## **Subject Areas**

Physics, General

# **Related Areas**

- <u>Acoustics</u>
- <u>Atomic/Molecular Physics</u>
- <u>Condensed Matter and Materials Physics</u>
- Elementary Particle Physics
- Nuclear Physics
- Optics/Optical Sciences
- Physics, Other
- <u>Theoretical and Mathematical Physics</u>
