

ECE 361: Design and Design Tools in ECE ELECTRICAL ENGINEERING

Command line SPICE; drawings for laser cutters and NC milling machines; specifying real resistors, capacitors, and inductors; understanding ground concepts; designing DC power supplies: PCB layout using KiCad or similar; numerical optimization for design; research and the creative process in design. 1 Credit

Prerequisites

- El E 351: Models and Circuits I
- Engr 361: Electric Circuit Laboratory

Instruction Type(s)

• Lab: Laboratory for ECE 361

Subject Areas

- Electrical and Electronics Engineering
- Computer Engineering, General
