

## **Engr 662: Advanced Artificial Intelligence**

### **SCHOOL OF ENGINEERING**

Advanced aspects of artificial intelligence. Logical foundations of AI. Machine learning, planning, representation of common-sense knowledge, image understanding. Intensive study of artificial intelligence programming techniques and languages.

3 Credits

### **Prerequisites**

- [Csci 531: Artificial Intelligence](#)

### **Instruction Type(s)**

- Lecture: Lecture for Engr 662

### **Subject Areas**

- [Engineering, General](#)
- [Computer Science](#)
- [Artificial Intelligence](#)
