

# Engr 314: Materials Science Laboratory SCHOOL OF ENGINEERING

Laboratory investigation of crystal structure, defects, and diffraction theory; solidification of solids; microstructurally controlled physical and mechanical properties.

1 Credit

## **Prerequisites**

- Engr 314 Requires: One Way-Co-Requisite Engr 313
- Pre-Requisite: 24 Earned Hours

## One-way corequisites

• Engr 313: Introduction to Materials Science

### Instruction Type(s)

• Lab: Lab for Engr 314

#### **Subject Areas**

• Engineering, General
