

## Engr 702: Finite Element Analysis of Fluid Flows

### SCHOOL OF ENGINEERING

Applications of FEM for fluid flow simulation; discussion on current developments; research on individual projects.

3 Credits

#### Prerequisites

- [Engr 590: Finite Element Analysis I](#) (Minimum grade: C)

#### Instruction Type(s)

- Lecture: Lecture for Engr 702

#### Subject Areas

- [Engineering, General](#)
- [Civil Engineering, General](#)
- [Mechanical Engineering](#)
