

Chem 401: Inorganic Chemical Principles CHEMISTRY & BIOCHEMISTRY

Application of physical chemical principles to the study of inorganic systems.

3 Credits

Prerequisites

- Chem 332: Physical Chemistry II
- Pre-Requisite: 24 Earned Hours

Instruction Type(s)

• Lecture: Lecture for Chem 401

Subject Areas

Inorganic Chemistry

Related Areas

- Analytical Chemistry
- Chemical Physics
- Chemistry, General
- Environmental Chemistry
- Forensic Chemistry
- Organic Chemistry
- Physical Chemistry
- Theoretical Chemistry
