

## Mgmt 371: Principles of Management MANAGEMENT

A comprehensive study of the coordination of organizational resources for the purpose of achieving organizational goals. Student's conceptual competencies will be enhanced by understanding the managerial processes of planning, organizing, staffing, directing, and controlling organizational activities. Critical thinking, problem solving and decision-making skills are developed through case analysis. Oral and written communication skills are demonstrated through written case reports and in-class presentations. Competency building exercises teach students how to apply knowledge and skills to implement creative and innovative solutions to organizational problems, as well as how to identify, analyze, and evaluate organizational opportunities.
