

# C E 472: Water Resources Engineering CIVIL ENGINEERING

Water supply systems, open channel hydraulics, hydrologic cycle, surface water hydrology, run-off models, groundwater flow and contamination. 3 Credits

### **Prerequisites**

• Pre-Requisite: 24 Earned Hours

# One-way corequisites

• Engr 323: Fluid Mechanics

## **Instruction Type(s)**

• Lecture: Lecture for CE 472

# **Subject Areas**

- Civil Engineering, General
- Water Resources Engineering

### **Related Areas**

- Civil Engineering, Other
- Geotechnical and Geoenvironmental Engineering
- Structural Engineering
- Transportation and Highway Engineering
