

Chem 580: Molecular Biochemistry I CHEMISTRY & BIOCHEMISTRY

Examination of the organization and functional mechanisms of gene expression at the molecular level. 3 Credits

Prerequisites

• Pre-Requisite: Chem 471 or Graduate Standing

Instruction Type(s)

• Lecture: Lecture for Chem 580

Subject Areas

- Molecular Biology
- Molecular Biochemistry

Related Areas

- Biochemistry
- Biochemistry and Molecular Biology
- <u>Biophysics</u>
- Molecular Biophysics
- Radiation Biology/ Radiobiology
- Structural Biology
