

# C E 572: Stormwater Engineering and Management

## CIVIL ENGINEERING

Quality and quantity of urban and rural stormwater. Runoff quality and quantity characteristics. Receiving water problems and sources of pollutants. Selection and design of stormwater quantity and quality controls. Stormwater computer models. Stormwater regulations.

3 Credits

### Prerequisites

- Pre-Requisite C E 472 or Graduate Standing

### Instruction Type(s)

- Lecture: Lecture for C E 572

### Subject Areas

- [Water Resources Engineering](#)

### Related Areas

- [Civil Engineering, General](#)
- [Civil Engineering, Other](#)
- [Geotechnical and Geoenvironmental Engineering](#)
- [Structural Engineering](#)
- [Transportation and Highway Engineering](#)
