THE UNIVERSITY of MISSISSIPPI

Csci 345: Information Storage and Retrieval

COMPUTER & INFORMATION SCIENCE

Examination of systems for storage and retrieval of information in textual and other formats. The topics include query processing, matching and ranking algorithms, text analysis, user interfaces, and evaluation of retrieval effectiveness.

3 Credits

Prerequisites

- Csci 211: Computer Science III

Instruction Type(s)

- Lecture: Lecture for Csci 345

Subject Areas

- Computer Science
