

## EI E 302: Applied Communication Systems **ELECTRICAL ENGINEERING**

Introduction to general communication principles and systems including transmission media, modulation, detection, and system applications. May not be counted toward a major in electrical engineering. 3 Credits

## **Prerequisites**

• El E 301: Applied Electronics

## **Instruction Type(s)**

• Lecture: Lecture for El E 302

Subject Areas
- Electrical, Electronic and Communications Engineering Technology/Technician
