

# C E 472: Water Resources Engineering CIVIL ENGINEERING

Water supply systems, open channel hydraulics, hydrologic cycle, surface water hydrology, run-off models, groundwater flow and contamination. 3 Credits

# **Prerequisites**

• Pre-Requisite: 24 Earned Hours

# **One-way corequisites**

• Engr 323: Fluid Mechanics

# Instruction Type(s)

• Lecture: Lecture for CE 472

# **Subject Areas**

- <u>Civil Engineering, General</u>
- Water Resources Engineering

#### **Related Areas**

- Civil Engineering, Other
- Geotechnical and Geoenvironmental Engineering
- Structural Engineering
- Transportation and Highway Engineering
