

## Chem 402: Inorganic Chemical Laboratory

### CHEMISTRY & BIOCHEMISTRY

Synthesis, identification and study of physical and chemical properties of selected inorganic compounds.

1 Credit

#### Prerequisites

- Chem 402 Requires: One Way-Co-Requisite Chem 401
- Pre-Requisite: 24 Earned Hours

#### One-way corequisites

- [Chem 401: Inorganic Chemical Principles](#)

#### Instruction Type(s)

- Lab: Laboratory for Chem 402

#### Course Fee(s)

##### Chemistry

- \$175.00

#### Subject Areas

- [Inorganic Chemistry](#)

#### Related Areas

- [Analytical Chemistry](#)
- [Chemical Physics](#)
- [Chemistry, General](#)
- [Environmental Chemistry](#)
- [Forensic Chemistry](#)
- [Organic Chemistry](#)
- [Physical Chemistry](#)
- [Theoretical Chemistry](#)
