

B.S.N. in Nursing (2 +2) Description

The B.S.N. in nursing (a 2+2 program with the University of Mississippi Medical Center) prepares graduates for entry-level professional nursing practice and provides a foundation for graduate education in nursing. Nurses have many critical roles in health care today, such as assessing physical and mental health; providing health care in complex environments; providing health education to individuals, families and communities; and working in teams with other health-care providers. Nurses may choose to be advanced practice clinicians, educators, researchers and health-care executives by advancing their education.

Minimum Total Credit Hours: 125 Course Requirements

The curriculum for the B.S.N. is a two-phase program consisting of a two-year, 65-hour academic program in the College of Liberal Arts on the Oxford campus. The second phase is a two-year program at The University of Mississippi Medical Center or other such institution. Courses to be completed at the Oxford campus, which are specific to the UMMC program only, are the following:

	Semester
Course	Hours
Writ 101, 102 (or Liba 102)	6
Chem 105, 115	4
Chem 106, 116, or Bisc 160, 161	4
Psy 201	3
Soc 101	3
Math 121 or higher	3
Humanities & fine arts	9
Spch 102 or 105	3
Bisc 206 & 207	8
