

Engs 523: Sensors and Platforms

This course introduces students to the basic design attributes of imaging sensor systems and the various platforms on which they operate. In this course, the student will gain an understanding of remote sensing systems, review the history of sensor technology, and familiarize themselves with the characteristics of remote sensing sensors and platforms.

3 Credits

Prerequisites

• Student must be admitted to Certificate in Geographic Info Systems program.

Instruction Type(s)

Indep Study: Independent Study for Engs 523

Subject Areas

• Engineering, Other

The University of Mississippi is accredited by the Southern Association of Colleges and Schools Commission on Colleges to award certificates and baccalaureate, master's, specialist, and doctoral degrees. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097, call 404-679-4500, or visit online at www.sacscoc.org for questions about the accreditation.
