

M E 405: Modern Energy Conversion MECHANICAL ENGINEERING

Consideration of high power density conversion such as nuclear Power, wind power, ocean power, solar power, biomass conversion, magneto hydrodynamics, fuel cells and electro-mechanical conversion.

3 Credits

Prerequisites

Engr 321: Thermodynamics

Instruction Type(s)

Lecture: Lecture for M E 405

Subject Areas

- Electromechanical Technology/Electromechanical Engineering Technology
- Mechanical Engineering

The University of Mississippi is accredited by the Southern Association of Colleges and Schools Commission on Colleges to award certificates and baccalaureate, master's, specialist, and doctoral degrees. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097, call 404-679-4500, or visit online at www.sacscoc.org for questions about the accreditation.
