Ph.D. in Education **Minimum Total Credit Hours: 90** **Emphasis - Special Education** **Description**

The Doctor of Philosophy (Ph.D.) in education with an emphasis in special education is 69 hours above the master's/specialist's degree. Candidates in the program acquire deeper and broader skills and knowledge of the field of special education. Doctoral-level classes emphasize current research-based theories and practice designed to prepare candidates for leadership positions in special education.

Doctoral degree graduates complete a program of study that requires a minimum of 69 graduate hours of coursework post master's/specialist's degree, which includes 18 hours of dissertation. Each doctoral candidate will successfully complete and defend a written comprehensive examination and a dissertation representing independent and original research.

Degree Requirements

The academic regulations for this degree program, as entered in the University of Mississippi Catalog, are in effect for the current or selected academic year and semester. The University of Mississippi reserves the right to 1) change or withdraw courses; 2) change rules for registration, instruction, and graduation; and 3) change other regulations affecting the student body at any time.

REQUIREMENT	HOURS	DESCRIPTION
Comprehensive exam		Student must pass a comprehensive examination.
Oral defense		Every candidate for the Ph.D. degree must successfully pass a final oral examination (defense of dissertation) administered by the student's dissertation committee and scheduled by the Graduate School.
Select an emphasis		Student must select an emphasis within the Ph.D. in Education: Education Leadership (K-12) or Secondary Education.
Submit Dissertation		Student must submit a dissertation to his/her GPC/Chair. The dissertation must conform to the regulations governing style set forth in "A Manual of Thesis and Dissertations Preparations", available in the Graduate School Office. Two copies of the dissertation must be presented to the Graduate School after the final examination for the doctorate has been accepted and before the beginning of the regular examination period for the semester in which the candidate plans to graduate.
GPA requirements		A cumulative average of not less than 3.0 (B) must be achieved in all graduate work taken.
Engineering Dean's approval		This Degree Audit program is an advising tool only. The student must still apply for a degree by returning a completed Degree Application Form to the dean's office before the last day to add classes in the semester preceding the semester in which the student expects to graduate. The Dean's Office will make the final certification that the courses listed on the application qualify the student for graduation. The Dean's Office will also determine if other university requirements (GPA, etc.) have been met.
