

## **Engr 555: Field Testing & Instr. in Geotech. Engr.**

### **SCHOOL OF ENGINEERING**

Principles, mechanisms, and interpretation of traditional and modern field testing techniques; principles and applications of geotechnical instrumentation to monitor and measure the behavior of structures; geotechnical measurement with the engineering point of view.

3 Credits

### **Prerequisites**

- [C E 431: Soil Mechanics I](#)

### **Instruction Type(s)**

- Lecture: Lecture for Engr 555

### **Subject Areas**

- [Engineering, General](#)
- [Geotechnical and Geoenvironmental Engineering](#)
