

# Csci 256: Programming in Python COMPUTER & INFORMATION SCIENCE

Problem solving, algorithm development, and programming techniques, including applications from a range of disciplines. 3 Credits

### **Prerequisites**

• Pre-requisite: Math 121 or higher.

#### **Cross-listed Courses**

• CIS 256: Programming in Python

## Instruction Type(s)

• Lecture: Lecture for Csci 256

## **Subject Areas**

• Computer Science
