

Engr 555: Field Testing & Insr. in Geotech. Engr. SCHOOL OF ENGINEERING

Principles, mechanisms, and interpretation of traditional and modern field testing techniques; principles and applications of geotechnical instrumeentation to monitor and measure the behavior of structures; geotechnical measurement with the engineering point of view.

Prerequisites

• C E 431: Soil Mechanics I

Instruction Type(s)

• Lecture: Lecture for Engr 555

Subject Areas

- Engineering, General
- Geotechnical and Geoenvironmental Engineering
