

## Csci 259: Programming in C++

### COMPUTER & INFORMATION SCIENCE

Study of programming in the language C++, covering character processing; use of pointers with strings, arrays and functions; data structures; bitwise operators.

3 Credits

#### Prerequisites

- Csci 111 or Csci 251

#### Instruction Type(s)

- Lecture: Lecture for Csci 259

#### Subject Areas

- [Computer Science](#)
